Business Planning Workshops
All programmes can be tailor made to fit within preferred time scales.

The Forest Child Key Stages 1 and 2

Designed to introduce enterprising skills and thought processes to Key Stages 1 and 2 through story telling and drama. The aim is to encourage enterprising thinking to a given problem and to develop the tools required to enable pupils to experience decision making that has impact, thus giving pupils the ability to consider consequence and opportunity. The programme is made up of 4, 2 hour sessions.

Blue Dolphin Island Key Stages 2 and 3

Designed to introduce enterprising skills and thought processes to Key Stages 2 and 3 through story telling and drama. The aims are to foster an understanding and a sense of responsibility towards the community and a sense of hope for the future; and to tap into the pupil's feelings and emotions and how these can be best applied in a team environment. A range of skills for enterprise are explored during the programme and related to the pupil's learning.

FISH! For Schools™ Key Stages 3, 4 and Sixth Form helps schools and their teachers create richer, more effective learning cultures.

Designed for teachers by teachers, FISH! For Schools combines research-based, staff-development materials, innovative classroom exercises and live learning experiences tailored to the needs of, teachers, support staff and students. Based on The FISH! Philosophy® which is alive in organisations throughout the world, FISH! For Schools helps educators build:

- development of the “whole student” as an engaged learner
- rewarding relationships
- positive classroom management
- personal responsibility and internal motivation for staff and students
- a safe and playful learning community
- respect for diversity
- conflict-resolution skills

Young Leaders Programme Key Stages 3, 4 and Sixth Form

An innovative leadership skills programme for students. A two-day residential course, full of practical, fun team building exercises. The event is completed with a project management session where students have to design and manage a project back within their school or college.

Enterprise Generator Programme Key Stages 3, 4 and Sixth Form

This programme looks at developing and assessing the necessary skills to set up a business. The event uses practical and fun team activities to explore individual aspirations and skills. All students will leave with a clearer understanding of what they can achieve. At the end of the programme students will use creative thinking skills to design a business idea and put it in to a project plan. Their business idea can then be put to practice in their school / college environments.

Negotiation Skills for Enterprise Key Stages 3, 4 and Sixth Form

Effective negotiation skills are essential when entering the world of work whether it be for your own business or as a leader in organisations. Student's negotiation skills are put to the test in this highly practical session. It equips students with essential skills for life. Full or half-day programme.

Positive Behaviour and Confidence Building Key Stages 3, 4 and Sixth Form

Allows students to develop those communication skills required to create and maintain positive relationships with other students and teachers and within peer groups. It challenges the attitude of students towards the world of work. Full or half-day programme.

Effective Team working and Communication Skills Key Stages 3, 4 and Sixth Form

This can be run as a residential or on site programme. Students are introduced to communication skills in a fun, practical way through indoor and outdoor activities. The residential programme's first team activity introduces students to communication skills within teams by working together to create part of a famous painting. Following the programme the finished canvas is donated to the school or college. One full day or one day plus half-day.

Time Management Skills for Enterprise Key Stages 3, 4 and Sixth Form

This programme provides students with practical time management tools to aid students in meeting course work deadlines and effectively prepare for exams. It also provides the necessary skills for managing time within the workplace. Full or half-day programme.

Creative Thinking Skills for Enterprise Key Stages 3, 4 and Sixth Form

Research tells us that organisations are recognising that, in order to move with the times, creative thinking needs to be instilled in the minds of their workforce. This fun filled engaging programme provides the thinking skills for young people to excel. Half-day programme.

Turning Ideas into Reality Programme Key Stages 3, 4 and Sixth Form

This course provides the practical tools to turn student's business ideas in to real life projects. It develops a whole range of skills for business such as planning, time management, budgeting, monitoring, teamwork, risk analysis and management. Full day programme.

Motivational Team Events Key Stages 3, 4 and Sixth Form

These events are designed to raise aspirations and learn about what team work is really about. Students will find out about themselves away from the classroom through a range of fun and challenging team working activities. Each activity is debriefed to all students to learn from their experiences. Venues can be sourced and provided that create the right atmosphere. Core Training can also organise team building events as part of a larger induction programme.

Stand & Deliver – Effective Presentation Skills

Presentation skills are necessary for so many reasons in today's education and business environments. This practical course guides students through the principles of presentation and how to design an effective structure for the relevant audience. Interactive and practical, students will gain experience in delivering high impact presentations. This can be used as an add-on to course work where a presentation is required. Full or half-day programme.

Stress Management

This programme provides students with the skills to equip them in identifying and coping with daily stresses such as coursework deadlines, peer pressure, parental and staff expectations. Half-day programme.

Interviewing & Employability Skills

A practical course that guides students through the key aspects of attending interviews. The course is delivered from a business perspective providing students with vital knowledge of the expectations of the employer and how they can tailor their skills to sell themselves.

Treasure Hunts

Core Training can design a tailor made treasure for your school or college that can be used as a fun and innovative team building activity during induction. Students get to meet each other through working together as a team but also get to learn all about the premises and relevant information.

Marketing and Sales Skills for Enterprise

Core Training have worked with international businesses on their marketing and sales skills. What better background to pass on these tools to students when they are developing their own business ideas.

Full or half day programme.

Programme Materials and Open Learning Books

Core Training can design a tailor made programme for your school or college. You can even use the above list as a shopping list to put your own programme together. You give us the objectives and we can design a programme around them.

INSET Training for Teachers

Core Training provide training programmes for teachers. Our programmes allow teachers to learn business skills that can benefit their own work lives but also can support the development of business skills in their students.
